We take a lot of time, energy, and effort to provide a healthy stable well-tempered puppy to each of our families. A lot of research and education has gone into our breeding program over the years. We health test the parents of each litter through Embark DNA and Health testing. Each Dam and Sire have had Hips and Elbows certified by OFA. Blood work and Hart monitoring is also done on a semiannual and yearly basis.

If a health concern arises during or after the birth of a litter the utmost medical attention is given through our veterinarian or the VSS, Emergency Services. All medical decisions are made by us with the proper guidance of our medical providers.

We are dedicated to the improvement of the Health and Longevity of the Doberman Pinscher Breed. We strive to continue the Champion Titles that our blood lines have produced through training and consistent show entries. Though your puppy may not enter the Show arena we believe we are providing a true Champion Blood Line puppy with the same potential if they are properly trained by an experienced handler for the confirmation show ring. Your puppy is being adopted/purchased as a Family Pet unless otherwise discussed before an agreement is signed.

This is not a guarantee that you will have a puppy reserved, this is the first step in our consideration process. The next step is for the review of the written agreement, once a decision is made a puppy is not placed on reserve until a confirmed pregnancy is announced, and a deposit is accepted. All Deposits are NON-Refundable.
